

August 23, 1980

To MEDINFO registrants:

Dear Sirs,

Enclosed please find and examine the copy of the final announcement provisional program of the ICAMHTS (international Conference on Automated Multiphasic Health Testings and Services).

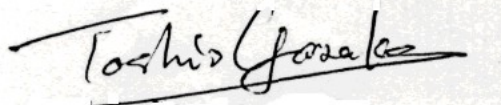

If it is of any interest, the sizable discount for a joint registration still stands for you. That is, the joint registration (or "pair-registration" as described in the MEDINFO 80 final announcement) is still only ¥58,000 instead of the ¥75,00 that you have to pay when you register separately for MEDINFO 80 (¥55,000) and for the ICAMHTS (¥20,000).

The AMHTS system is one of the most important of it's kind available with applied Medical Informatics and is promising in its field of new preventative-prognostic medicine. You are most welcome to the ICAMHTS. You need only to extend your stay in Tokyo two days after MEDINFO at the same site; Keio-Plaza Hotel.

You can contact directly the Secretary of the ICAMHTS or you can register yourself on your arrival at the conference site.

With all my best wishes,

Sincerely yours,

Toshio Yasaka, Ph.D.
Director, P.L. Medical Data Center
Conference Chairman, ICAMHTS
