

WORKING GROUP 1.

"INFORMATION SCIENCE AND MEDICAL EDUCATION".

from: R. SALAMON (Chairman WG1).

There was no meeting since Chamonix 1983.

The Group is planning a working conference and an open one in the next 2-3 years:

1) Working Conference "EXPERT SYSTEM AND MEDICAL EDUCATION".

This working conference may be organised in relation with a "new" working group of IMIA concerning ARTIFICIAL INTELLIGENCE and EXPERT SYSTEM or more largely MEDICAL DECISION MAKING (see proposal from R. Engelbrecht, Prague, Sept. 1985).

This conference will be in Europe in 1987 probably in France (Bordeaux) perhaps in Germany or Netherlands.

More precise information will be presented to the next IMIA Board Meeting.

2) OPEN Conference "EDUCATION IN HEALTH INFORMATICS FOR DEVELOPING COUNTRIES".

This conference will be organised in relation with WG9 (Medical Informatics in Developing Countries, chaired by Prof. Rienhoff, and will take place in Africa in 1987 or 1988 - Preliminary contacts for sponsoring and choice of country must be taken for this purpose.
