Dear Jos:

It is with great regret that I must inform you that the Pre-Medinfo '92 educational tour was cancelled because of an inadequate response. I am most grateful to you for your willingness to participate in what I know would have been an exciting experience and I am sorry for any inconvenience that this has caused. I hope to see you soon.

Dear Dr. Greenes,

I am very pleased with your acceptance to chair the Editorial Committee for MEDINFO 95.

The approval by the Board of IMIA and the Annual General Meeting is almost for 100 % guaranteed, but has to be done formally.

It is most important that you meet and discuss at length with Prof. Sigulem and Prof. Kaihara during Medinfo 92 in order to prepare the planning as well as the budget of your Committee. You should certainly also meet Dr. K.C. Lun from Singapore, who is a very effective organizer and editor. I am sure you will appreciate his input very much.

Dear Dr. Greenes, again many thanks for accepting this major challenge. I am very confident and pleased that the work will be in good hands.

Sincerely Yours,

Jos L. WILLEMS, M.D., Ph.D.

Dear Dr. Willems:

Thank you very much for the invitation to chair the Editorial Committee for MEDINFO 1995. I am most pleased to accept this invitation, and look forward to working with you and IMIA, the Organizing Committee, and the Program Committee.

By copy of this letter, I am asking Dr. Sigulem to provide information to me about the expected travel schedule and budget for this activity.

It would also be helpful if I could receive a time line of the various milestones anticipated for the meeting that affect the work of the Editorial Committee, and the responsibilities of the Committee during each phase. If this has not yet been done for MEDINFO 1995, similar planning documents for MEDINFO 1992 would be highly valuable.

Inasmuch as I am now arranging my travel itinerary to Geneva, please also let me know if there are any meetings during MEDINFO that I should plan to attend.

Again, thank you for giving me this exciting opportunity of participating in the preparations for MEDINFO 1995. Given the excellent tradition of the meetings to date, I regard it as a very great privilege to be able to work with IMIA on helping the 1995 meeting to carry on this tradition.

Yours very truly,

Robert A. Greenes, M.D., Ph.D.
